- 1-12-2020

IQAC and Career Counselling Cell organised a webinar on 'Interview Skills.' Mrs Vijayashree Urs, Director, Online Engineer IDC Pvt Ltd, was the resource person.

Report: Vijayashree Urs spoke on facing interviews. She said how a good letter and an impressive CV are prepared to get an opportunity to meet the prospective employer. Therefore, an interview is an essential step in the job search. An interview is an opportunity to demonstrate your abilities and competencies face-to-face and convince the interviewers that you are the candidate for the job. She gave pointers to face the interviews. She said it is perfectly normal to be nervous before an interview. Facing an interview is a skill, not a talent you are born with. So one should practice, hone and perfect it.

• 23-06-2021

Career & Counselling Cell and IQAC organised a webinar on 'Attributes required for civil servants' Kalpana Rao, Independent Director with Capgemini, was the resource person.

Report: Kalpana said hard work, commitment, empathy, resilience in approach, and integrity were important for civil servants. She further noted that being sensitive to culture and their problems, aspirations, and hopes is essential to connect with them. Being value-driven, engaging people, and being objective is vital. A civil servant should not be careless or complacent, and she quoted Ruskin Bond saying that one should not take away other people's dreams, happiness, song, or faith. With freedom comes responsibility, she said.

Department of Chemistry

Title of the Activity/Event: International Webinar on
'Multicomponent Reactions and
Beyond' Role in Drug discovery'

Date of the Event: 22-01-2021

Resource Person: Dr. Vishwanatha T.M M.Sc,P.hD

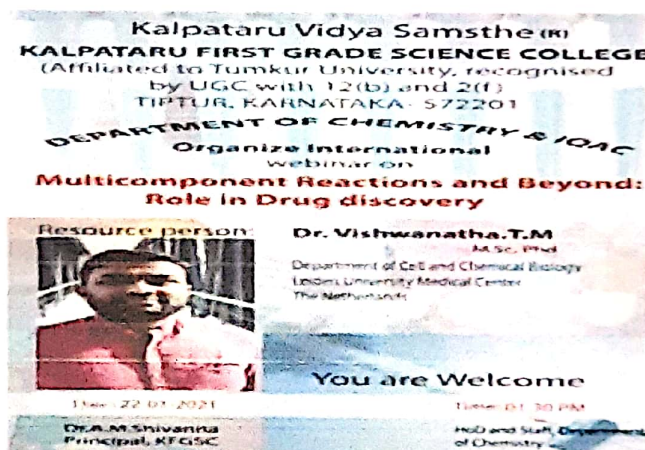

Department of Cell and Chemical Biology

Leiden University Medical center Netherlands.

REPORT: Department of Chemistry organized International webinar on 'Multicomponent Reactions and Beyond: Role in Drug discovery' by Dr. Vishwanatha T.M who is the former student of our college. Multicomponent reaction Chemistry is highly undervalued in contemporary synthetic Chemistry and now widely recognized for its impact on drug discovery. His talk is focusing on evolution of MCRs (in particular Ugi-MCRs) and its role in drug discovery. His talk also focus on the recent promising developments in Antibody Drug Conjugates (ADCs) for the cancer treatment. Nearly 95 B.Sc students attended this webinar and benefited.

Department of Chemistry Organized International Webinar on "Multicomponent Reactions and Beyond: Role in Drug discovery" On 22-01-2021.
